

Kim's Course Notes

There are 6 videos in the Fabulous Hair Colour Analysis course, around 58 or 59 minutes each, and one of my jobs, before launching this new program, has been to watch them all again to make sure we haven't missed any documents or anything else important.

Besides learning loads of stuff that I had completely forgotten, I made loads of notes as I went along.

So many consultants told me they would like a copy of these that I've decided to include them in your Course Resources.

I'm sure you'll make your own notes as you watch the videos but what you might notice and what I've noticed could be two completely different things so it's always good to have another perspective, don't you think?

Please note **these are not transcripts!** Even though I can type really fast, I discovered that I couldn't possibly keep pace with all the hints and tips that mad, bad and dangerous-to-know woman called Kim Bolsover was churning out on the videos!

As I only decided at the last minute to make these notes available to you, I've had to turn some of my crazy bullet points into proper sentences or you might never understand what the flip I'm rattling on about! If there's anything you don't quite get, feel free to let me know.

I really hope you find them useful.

I wish you everything I wish for myself,

Kim Bolsover
